EXCLUSIVE

Fossilized Dawn

Luxurious and eternal elegance in touch

Autumn Winter
2026-2027
Collection Launch

Zhongding AW26-27 Collection draws inspiration from archaeological fragments - weathered murals, lost symbols, and the architectural silhouettes of ruined temples. This season's collection features luxury fibres meticulously crafted through innovative techniques, achieving unparalleled premium quality of yarn that embodies both vintage charm and contemporary sophistication. History is rendered into tactile imprints, inviting you to feel the allure of time's sedimentation.

NOBLE SPECIAL COLLECTION
RARE ANIMAL FIBERS

Showcasing ultra-luxurious yak cashmere ,baby camel hair, and raccoon wool.

Unmatched natural texture and luster for high-end fashion applications.

Autumn 2026-2027

Winter

NEWS

Key Highlights

This season, Zhongding's autumn-winter series transforms natural fibers into textiles imbued with the patina of history—each thread whispering tales of forgotten eras. More than mere yarn garment, this collection initiates a profound dialogue that transcends both time and civilization.

YARN PATH

END-TO-END
COLLABORATIVE
INITIATIVE

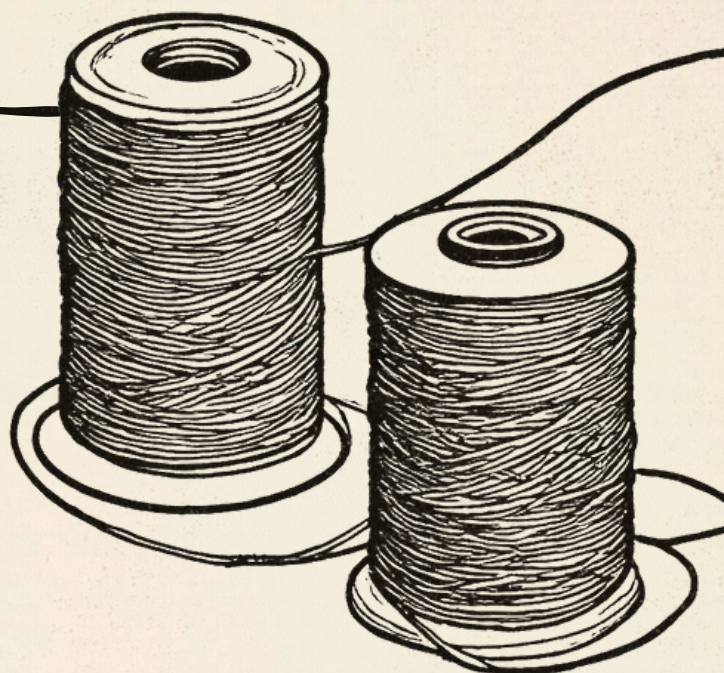

We offer seamless support from raw material sourcing to end-market solutions, fostering value creation across the entire supply chain.

Zhongding Textile

Guided by the philosophy of 'Naturalism,' Zhongding is committed to a people-centric and kindness-driven approach, crafting premium luxury yarns with exceptional expertise. Every strand reflects the dedication to quality and a profound respect for nature.

Established in 2001 and based in Tongxiang, Zhejiang Province, Zhongding spans nearly 200,000 square metres with a total investment of 1 billion RMB.

Equipped with international production facilities, Zhongding specialises in the manufacturing of woollen, semi-worsted and worsted yarns, complemented by capabilities in fibre dyeing and yarn dyeing.

ZHONGDING CASHMERE

In Inner Mongolia's Alxa region, Zhongding raises elite white cashmere goats across 5,800 acres of natural pasture. These hardy animals thrive in the harsh, arid climate, producing ultrafine cashmere fibers measuring just 13–15 microns—earning the title "King of Cashmere" for their exceptional softness and insulation.

With full vertical integration from farm to yarn, Zhongding ensures traceable, premium-quality cashmere, providing luxury brands with a reliable and uncompromising supply chain.

**MOMENT & ETERNITY
SHADOWS IN RUINS
REBORN IN STONE**

THEMES IN THEME

Rugged
&
Delicate

Theme 1: Moment & Eternity

Moment & Eternity

INSTANTANEOUS TRANSIENCE

THEME

Time transforms fleeting **moments** into enduring witnesses, crafting a paradoxical beauty where bold silhouettes and intricate textures coexist—blurring the line between the **eternal** and the ephemeral.

Against the relentless flow of time, these relics now stand before us in an almost unchanging form, as if defying the very passage that shaped them.

PARADOXICAL AESTHETICS

They are bridges between the ephemeral and the eternal. In their stillness, we hear echoes of laughter, toil, and forgotten stories. To touch them is to touch time itself—to feel the weight of centuries compressed into a single, tangible presence. They remind us that history is not merely a record of grand events, but the silent endurance of the mundane, transformed into something sacred by the sheer persistence of memory.

... ..

In their weathered surfaces, we find both the fragility of human existence and the astonishing resilience of what remains. They ask us to pause, to listen, and to remember—not just the past, but our own fleeting place within its vast, unbroken chain.

THE INTERWEAVING OF THICK AND THIN YARNS MIRRORS THE TWO DIMENSIONS OF TIME.

THE RUGGED STRANDS SOLIDIFY INTO ETERNAL WITNESSES, WHILE THE FLOWING TEXTURES CAPTURE FLEETING MOMENTS.

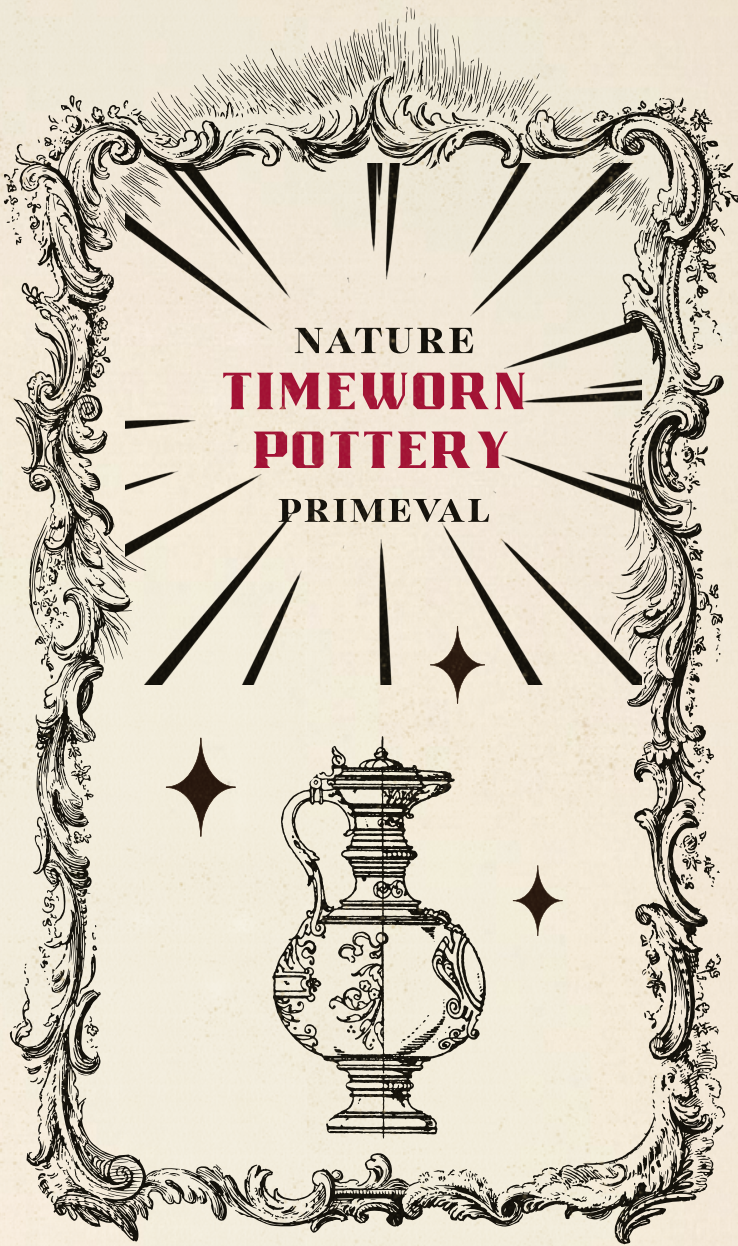

ENTWINED

SATURATED COLORS

This hue carries the depth of molten magma solidified in the earth's core, yet also resembles windblown pottery—weathered by millennia of sand—glowing with a warmth both rugged and luminous in the twilight.

CULTURAL AMBIENCE

COLOR PRESENTATION

The color palette centers on a rich reddish-brown, reminiscent of ancient terracotta bathed in the glow of sunset. Through the interplay of analogous and adjacent hues, it evokes a profound cultural resonance—where raw nature and vibrant life collide.

KNITTING STYLE

Heavy-Gauge Stitch × Delicate Jacquard

The collection masterfully blends bold stitches with delicate jacquard, crafting unique textures through meticulously calibrated yarn compositions. Featuring CASHTOUCH 100% Ultrafine Merino wool and the luxurious CELESTE cashmere core-spun yarn, the designs interweave these refined fibers with heavy-gauge knits for a striking interplay of contrasts.

Celeste
2/68Nm 78%Cashmere 22%PET

Core-spun yarn elevates delicate jacquard by merging strength with sophistication. Its filament core ensures precise distortion-free patterns while the cashmere wrap delivers unmatched softness. The result: Jacquard fabrics with crisp detailing, luxurious drape, and enduring refinement.

With an airy layered knit and delicate eyelet detailing, the fabric surface showcases dynamic depth and dimension. A soft luminous sheen glides across, while textured yarns define the silhouette, and cashmere-blend core-spun yarn lends a plush, ethereal touch. The design achieves an exquisite equilibrium—structured yet fluid, substantial yet weightless.

Shadows in Ruins

★ History's rugged soul, reimagined in the language of touch ★

THEME INSPIRATION

Following the traces of 'Time-Worn Shadows,' the collection translates the patina of history into delicate tactile textures. The theme artfully blends the structural aesthetics and ornamental motifs of ancient architecture, crafting a uniquely vintage-romantic style through exquisite craftsmanship.

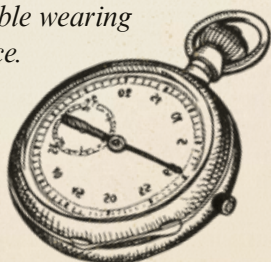

THE NEW REVELATIONS

VINTAGE STYLE

MASTERFULLY CRAFTED
WITH METICULOUS
ARTISTRY.
THIS COLLECTION
CELEBRATES A UNIQUE
RETRO-ROMANTIC
AESTHETIC THAT
TRANSCENDS TIME.

Crafted with exquisite artistry, it embodies a distinctive vintage romance. Delicate tassel pendants, elegant rolled edges, and innovative faux lapel designs create a playful interplay of illusion and dimension. Through the unique expressiveness of knitting techniques, the collection retains architectural silhouettes while delivering a sophisticated, soft, and comfortable wearing experience.

Vintage Alchemy

Inspired by the verdant glow of pine-needle amber, the rust-toned depths of volcanic rock, and the glassy brilliance of ice-forged obsidian, the theme weaves these elements into a vivid tapestry of color.

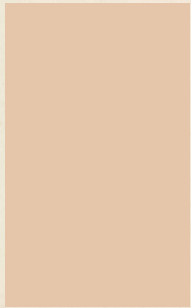

COLOR PRESENTATION

Color inspiration draws from the primal greens and dark reds of nature, blended with woody tones and mineral hues, creating a rich natural essence and a uniquely vintage romantic ambiance.

KNITTING STYLE

RELICS OF FORGOTTEN DAWNS

MYSTERIOUS
ANCIENT CIVILIZATION

Structural Poetry

The floating-thread and terry-loop techniques recreate Pompeii's eroded fresco textures and fissured pillars, translating archaeological grandeur into wearable architecture.

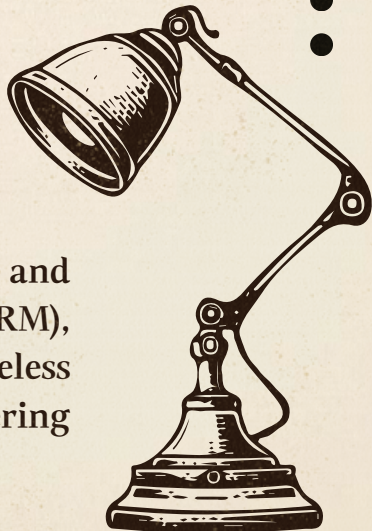

Palette of Antiquity

Fresco Cracks - Delicate raised seams mimic mortar lines.
Ash-Brushed Depth - Heathered grays evoke volcanic patina.

Crafted from 2/26Nm 100% Cashmere (ELEGANCE) and 2/26Nm 90% Ultrafine Merino Wool Blend (CHARM), this meticulously woven textile embodies timeless sophistication—melting softness meets unwavering resilience to redefine quiet luxury.

KOS

2/58Nm

80%Ultrafine Merino Wool 20%PET

Engineered with IP yarn-trapping technique and rib-stitch craftsmanship, this textile sculpts dimensional openwork motifs—where breathability dances with structural poetry—while precision-crafted KOS elastic core-spun yarn, combining ultrafine Merino wool with a PET core, delivers a plush hand-feel and dynamic elasticity, making it the perfect foundation for advanced IP yarn-trapping techniques.

Reborn in Stone

DESIGN INSPIRATION

Born from erosion and rebirth, life quietly blooms amidst ruins. Like "Rebirth from Stone Fissures", the yarn awakens with vitality between warp and weft. Ruins are not merely relics of history—they are the cradle where nature's forces nurture new life.

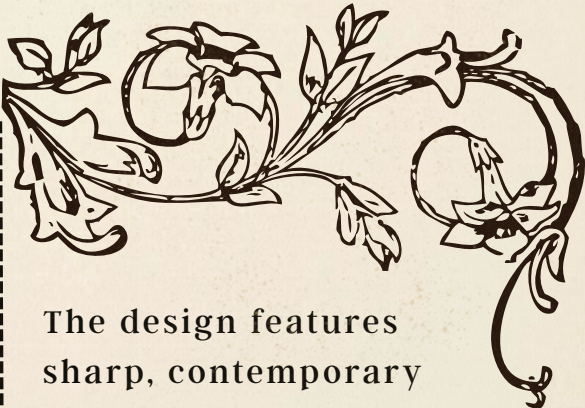

THEME

The interplay of weathered textures and renewed vitality embodies a dialogue between classic and contemporary aesthetics. Sharp silhouettes and material tactility take center stage, with architectural tailoring constructing sculptural forms while preserving the fabric's natural drape.

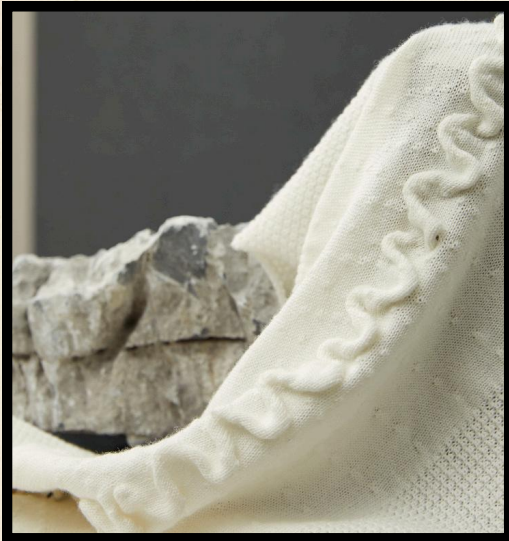

VIBRANT ENERGY

The design features sharp, contemporary tailoring, harmoniously blended with the supple texture of natural fibers for effortless sophistication.

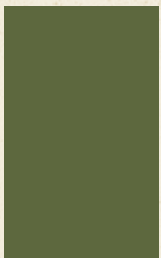

Golden Palm and Cedar Green—versatile yet sophisticated—are grounded by earthy Pinecone Brown. This muted palette balances vibrancy with restraint, embodying timeless elegance through carefully calibrated saturation.

Undercurrent Vitality

Nature's narrative unfolds in measured tones - where every hue transcends mere chromatic pairing to become a meditation on patina and renewal.

KNITTING STYLE

HARMONIOUS DIMENSIONAL STRATIFICATION WITH TACTILE NUANCE

Blending traditional knitting techniques—slip stitch, blister knit, and ribbing—with precise gauge variations to create weathered, organic textures that highlight the yarn's natural character. The innovative double-faced jacquard delivers reversible color contrasts, while geometric intarsia and quad-knit techniques build rhythmic, three-dimensional layers, resulting in a fabric that balances artisanal craftsmanship with modern dimensionality.
